

Disinfection Service

Specialist Disinfection Service (For **Covid** Confirmed Premise)

Make Your Home Safe Again With Specialist Disinfection Service

It can be stressful when a family member became a victim of COVID-19 virus. Which is why Rentokil is here to help make your home safe for the rest of family members through our Specialist Disinfection Service.

We ensure that all sources of contamination and potentially harmful hazards are eradicated in a safe, discreet and legally compliant manner. Our treatment uses a high-level surface disinfectant with proven efficacy against a broad-spectrum of diseases-causing organisms affecting humans.

We are experts in hygiene and disinfection services

We have over 50 years of experience and our technicians are trained in biohazard safety

Our cleaning equipment and products are approved and effectively remove pathogens

Our misting services treat hard-to-reach areas, landing on surfaces in the same way that pathogens do

Our disinfection service is approved by KKM, MITI, DOA and FDA/EPA UK & EU, New Zealand and Australia

Safe to be applied at home. The low toxicity, water-based and alcohol-free formula leaves no trace
